THE CITY OF SAN DIEGO

# No-Fee Computer Class
## Introduction to the Internet

### Description

Learn home page basics and how to navigate the Internet. Learn how to open a free email account, to send and receive e-mail, create an address book and to save and delete messages. You will also learn about working with e-mail attachments and about the various search engines among other things. Student manuals provided. **Basic computer skills required!**

Instructor: Will Hauth, OASIS Computer Instructor

### Two Sessions to Choose From

**Session One**: Thursdays, September 22, 2005- October 27, 2005
10:00 am – 12:00pm    (6 classes)

## or

**Session Two**: Thursdays, November 3, 2005- December 15, 2005*
10:00 am – 12:00pm      (6 classes)
*(No Class - Nov 24th)

Classes held in Computer Classroom, Lower Level

# Register by phone or in person at the library.

These classes are made possible through the SBC/OASIS Excellence in Technology Partnership funded by an SBC Excelerator national grant and with the support of the Friends of the Point Loma Library. The project will provide seniors with skills to use technology effectively for workforce reentry and productive community engagement.
